Summary

I am a 24-year-old South African born male graduate from Tshwane University of Technology with a Diploma in Industrial Physics. With a mathematical and physics background I am ready to expose myself to a platform that requires problem solving skills and that exposes itself to scientific and mathematical concepts. I am charismatic and self-driven, and what I lack in experience, I will make up for in work ethic.

Education

Tshwane University of Technology

Diploma

Pretoria, Gauteng

Graduated May 2018

My Industrial Physics qualification consisted of modules like Computer Programming, Mathematics I and II, Photonics I and II and Computer skills just to name a few. I obtained an average score of 65.24%. I attended Pretoria Technical High School where I did subjects like Mechanical Technology, Engineering Graphics and Design, Physical Science, Mathematics, English HL, Afrikaans FAL and Life Orientation. I was also the First Team cricket captain, I received my colours awards in dancing and I was awarded a certificate of merit for loyally serving on the Learners Representative Council committee.

Hobbies & Interests

My current interests feature practices like Data Analytics/Data Science and Python programming. I am currently taking online courses in the practices mentioned above and I am also an intermediate chess player. I have a significant appreciation for literature and leadership.
